

DBT Day 7 Lab Task

1. Write a query to find the names of employees that begin with 'S'?
2. Write a query to retrieve the EmpFname and EmpLname in a single column as "FullName". The first name and the last name must be separated with space.
3. Write a query to find all the employees whose salary is between 50000 to 100000.
4. Write a query to fetch all the records from the EmployeeInfo table ordered by EmpLname in descending order and Department in the ascending order
